

Welcome

The students performing today are of all ages and range from some taking lessons for only a few months to others playing for several years. You will also get a sample of many different styles taught at our studio.

During their performances, you will see them demonstrate their skills in the knowledge of scales, chords, and improvisation. The students have worked very hard on their songs. So please sit back and enjoy.

“The musician is constantly adjusting decisions on tempo, tone, style, rhythm, phrasing, and feeling —training the brain to become incredibly good at organizing and conducting numerous activities at once. Dedicated practice of this orchestration can have a great payoff for lifelong attentional skills, intelligence, and an ability of self-knowledge and expression.”
